Team ID	xxxxxx
Project Name	Flood Risk Prediction Using Machine Learning
Maximum Marks	4 Marks

Empathy Map

Persona: Disaster Management Officer

SAYS

- We need accurate flood warnings.
- Timely alerts save lives.
- Data should be reliable.

THINKS

- Can we predict floods earlier?
- Resources must be allocated efficiently.
- False alarms should be minimized.

DOES

- Monitors weather reports.
- Coordinates emergency response teams.
- Plans evacuation and rescue operations.

FEELS

- Responsible for public safety.
- Concerned about loss of lives and property.
- Confident when predictions are accurate.
