

Coding & Solution

Date:	3 July,2026
Team ID:	-
Project Name:	Rising Waters - Flood Prediction Using Machine Learning
Maximum Marks:	5 Marks

Filled Solution Summary

Field	Details
Repository Link / URL	-
Programming Language(s)	Python, JavaScript, HTML, CSS
Framework(s) Used	Flask, XGBoost, Pandas, Scikit-learn
Key Features Implemented	Flood prediction API, Feature engineering, ML model, Risk visualization
Pending / Incomplete Features	User authentication, Database integration

Code Quality Checklist

Criteria	Status
Code is modular and organized into functions/classes	Yes
Meaningful variable and function names are used	Yes
Code includes documentation where necessary	Yes
Error handling is implemented for critical operations	Yes
Application runs without critical errors	Yes
Code is committed to version control repository	Yes
